

RSS Guide Firefox

Creating an RSS Feed while using the Firefox browser requires the use of a browser extension to use. In this guide we will go over how to acquire an RSS extension and subscribe to an RSS Feed.

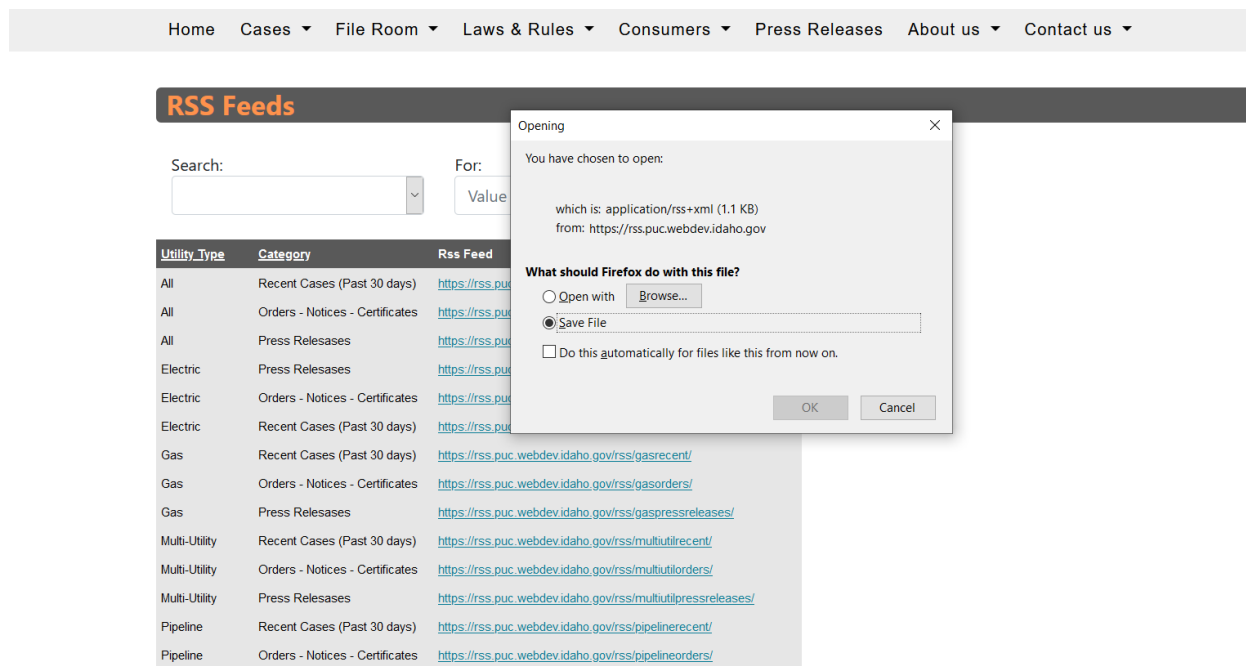

Step 1: Go to the Firefox store and find RSS Extension.

Go to the [Firefox Add-Ons](#) webpage. Click on the hyperlink in the previous sentence to go there, or find it by searching it in Google or any other search engine. Search for the add-on “Feedbro”. There are multiple RSS Extensions in the Firefox Add-Ons page that will work, but we recommend this one. Click the button highlighted in red called “+ Add to Firefox” to install.

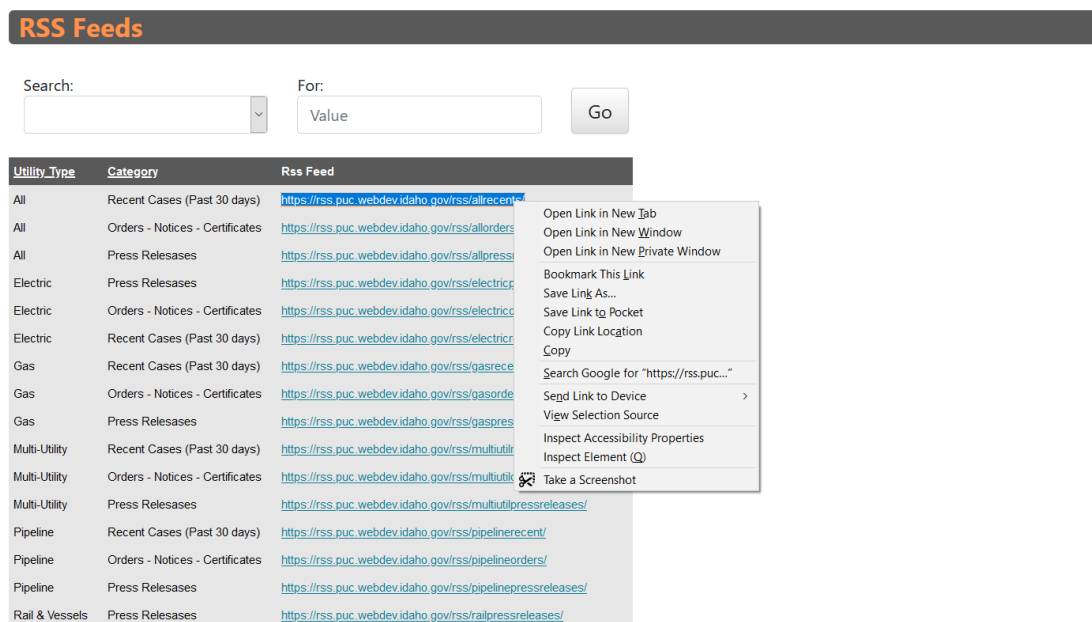

Step 3: Open Feedbro Extension

Once the Add-On is installed, go back to the [PUC RSS Page](#). Do not click the link, as Firefox will not understand what to do with the RSS Feed as shown in this image.

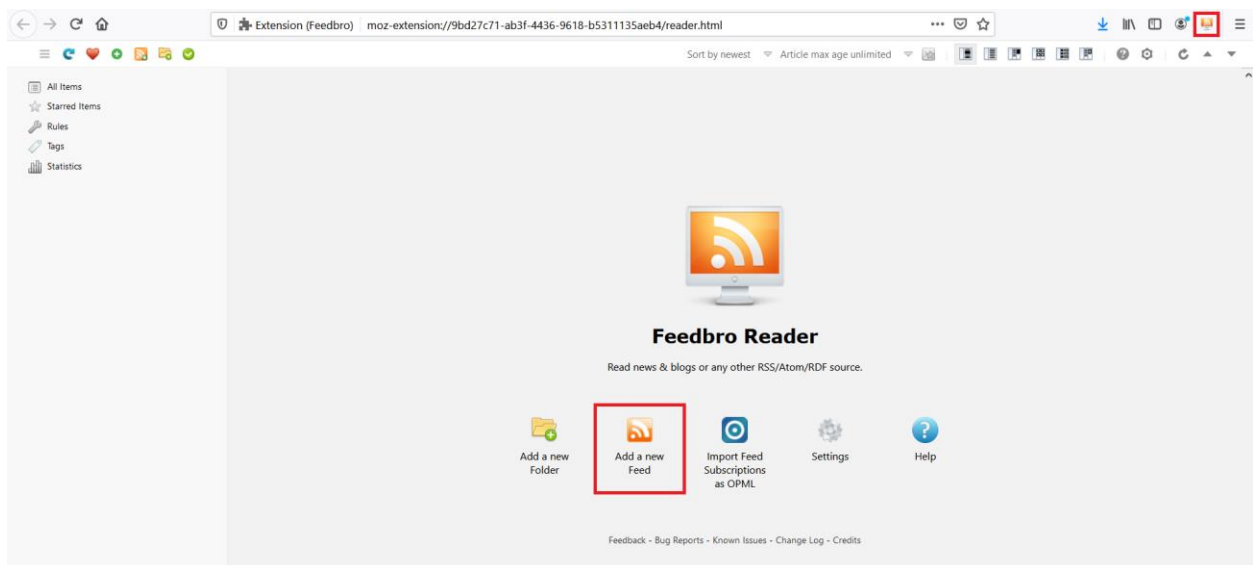

Instead, copy the link of the RSS Feed you are interested in. You can do this by either highlighting the line and pressing the “Ctrl” + “c” keys on your keyboard, or right-clicking the mouse button and selecting “Copy” from the menu. Your computer will now save this link.

Step 4: Open Feedbro Extension

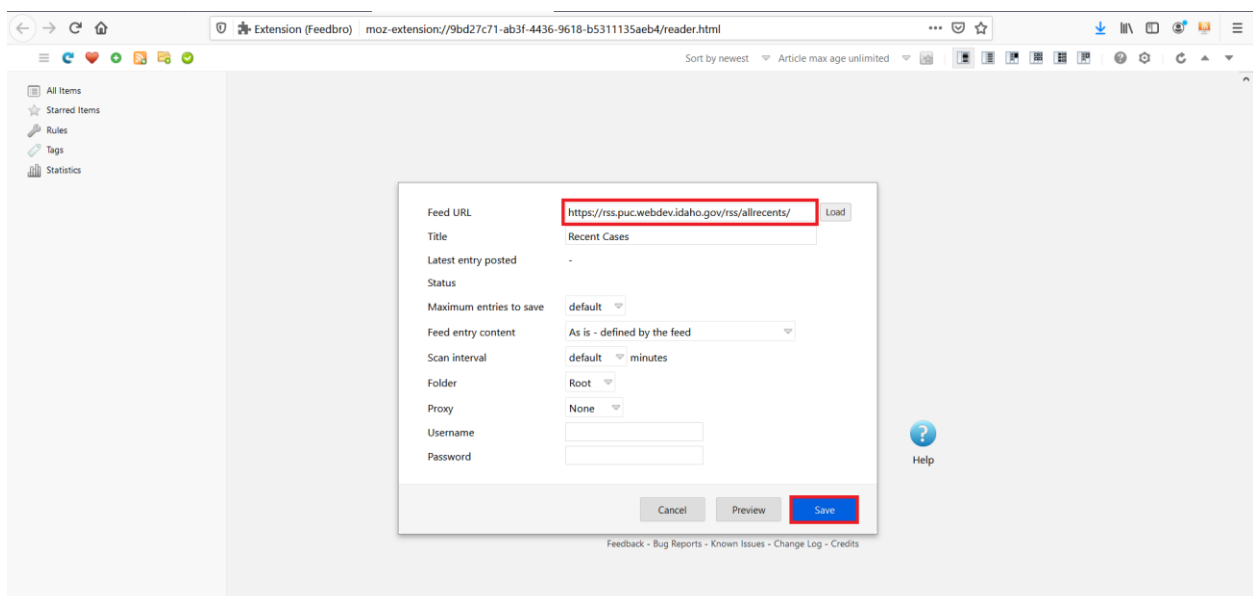

Once the Add-On is installed, a pin should appear on the top-right of the screen as is highlighted in the image. Click on that, and you should be brought to this “Feedbro Reader”

screen. To add a new RSS Feed for the “Feedbro Reader” extension, click on the “Add a new Feed” button highlighted in red at the bottom of the screen.

Step 5: Add RSS Feed

A pop-up will appear, asking for information about the new RSS Feed to be added. Paste the link on your computer saved in the “Feed URL” text input. For the Title text field fill it out with whatever makes the most sense for this RSS Feed. Next, click the “Save” button below.

Step 6: Confirm that you are following RSS Feed

Congratulations! You are now subscribed to the RSS Feed. At any time you can view all RSS Feed updates from the Public Utilities Commission by clicking on the “Feedbro Reader” and extension as shown below. Clicking on any individual item in the list will bring you to a webpage with more information related to that item, which shows all recent RSS Feeds. Clicking on “Open Feed Reader” will bring you to the “Feedbro Reader” screen where you can see all RSS Feeds, regardless how recent the information is.
